@sjsuengineering

Shoutout to Dr. Dan Nathan-Roberts for creating a video to help Spartans make sure their home workspaces are ergonomic! Each of the tips is very helpful and the video is on SJSU social media accounts! Check out the video [here](#)!

## Career Crunch Workshops this Friday (**tomorrow**)!

Career versus School: What to Do after SJSU (Friday, April 17, 10-11am )

Explore post-graduation options. The workshop will be presented by Marta Ramirez-Rodenas and Jesus Santos from ESSC, and Katrice Gibson from Graduate Admissions. Join them for a discussion about the work vs school debate in deciding what happens after graduation.

- Sign up on [Handshake](#) to get the Zoom link or call in number.

Careers in Artificial Intelligence talk with NVIDIA Solution Architects (Friday, April 17, 3pm)

Several researchers at NVIDIA are using GPU powered AI to fight the deadly COVID-19. Rupali and Ananth, Solution Architects at NVIDIA, will talk about how AI is changing and impacting the world in 2020, how the constantly evolving ecosystem is being employed across industries for different use cases and how you can be a part of this revolution. Tune in and learn about building relevant skillsets and project portfolios for the different roles in AI.

- Sign up on [Handshake](#) to get the Zoom link or call in number.

Spartan Engineers! LinkedIn is hosting a virtual Rock Your Profile event on **Tuesday April 21st** at 4 pm. Take another look at your LinkedIn Profile and get tips from Campus recruiters.

RSVP at [ryp.splashthat.com/sjsu](http://ryp.splashthat.com/sjsu). Even if you can't attend, RSVP to get more information about future webinars.

## Career Center Resources

A gentle reminder that career resources can be accessed while you are studying at home. Be prepared for those interviews!

- Canvas courses and modules, based on career development and design theories:
  - [ENG - Your Journey to Career Readiness](#): Three modules review fundamentals of self-assessment, transferable skills building, and job and internship search.
  - [Internship Ready](#): Three modules to help you prepare for, find, and complete an internship.
- Schedule a virtual appointment with a counselor:
  - Undergraduate: Kelly Masegian via [SJSU Handshake](#) or Spartan Connect
  - Graduate: Carrie McKnight through email
- Check your resume with VMock! Go to the VMock tile in one.SJSU (see the flyer below).
- Live feeds of jobs/internships on Handshake can be found on our [career pathways page](#).
- Go to the [Launch Your Career](#) page to access the Career Guides: Resume/Cover Letter, Job & Internship Search, Interviewing, Applying to Graduate School, Graduate Student Career Guide, and more.
- [Watch a video](#) on creating a strong LinkedIn Profile.
- Network with [SJSU2 Mentoring and Meetups](#)
  - Make Quick Connections with alumni and industry professionals.
  - Watch a LinkedIn video on how to [network](#) with SJSU Alumni.

## Online Resume Review

VMock is an online resume tool designed to provide you with instant and personalized feedback to help you improve your resume.

### 01 Log in with your SJSUOne ID

- Currently registered students have access to VMock.
- To log in, go to [vmock.com/sjsu](http://vmock.com/sjsu).

### 02 Upload Your Resume

- Upload in PDF format only.
- Format resume into one column.
- Do NOT add images, tables, or graphics.
- Use standard font (e.g. Arial, Calibri, Verdana)
- Refer to our resume template on VMock. Go to Student Dashboard > Templates & Guidelines.
- You are allowed 10 resume uploads each year.
- Click the blue **View Detailed Feedback** button to review the system feedback.

### 03 Understanding VMock Scoring

- Scoring on VMock is strict. Don't stress about your score; focus on your color zone and aim to move closer to the Green Zone.
- VMock Resume Score is computed based on three main modules and evaluated against top SJSU resumes.
- The score indicates where your resume currently stands either in the Red, Yellow, or Green Zone.

**Red Zone:** Pay attention to the feedback and specific examples relevant to your situation.

**Yellow Zone:** You're on the right track. Follow the feedback to make improvements (score of 70 is good).

**Green Zone:** Great job! There might still be room for improvement. Make sure to review the feedback.

### 04 VMock Feedback

VMock's System Level Feedback has 3 main modules:

**Impact** measures how effectively your content stands out to a recruiter.

**Presentation** reviews your resume format, length, grammar, and spelling. Typical score is in the single digits.

**Competencies** measures how effectively you demonstrate in-demand skills like communication, collaboration, and analytical thinking.

**Tip:** Focus on Impact and Presentation feedback.

### 05 Update Your Resume

- Once you review VMock's detailed feedback, open a separate window to revise your resume based on the feedback and suggestions.
- Re-upload your edited resume to view your new score and incorporate further suggestions for improvement.
- Continue to make updates to your resume as needed. Aim towards reaching the Green Zone.

### Keep in mind...

- Use VMock as a starting point to get feedback on a traditionally formatted resume.
- When questioning VMock's feedback, use your best judgement. For more information on resume format and content, go to [sjsu.edu/careercenter](http://sjsu.edu/careercenter) > Launch Your Career > Resume/Cover Letter Guide.
- For additional help, attend Career Center drop-in hours or schedule an appointment with a career counselor on [sjsu.joinhandshake.com](http://sjsu.joinhandshake.com)

**SJSU | CAREER CENTER**

## Student Shoutout

Shoutout to Computer Engineering student **Manasa Hari** who was the sole United States recipient of the [Facebook Pytorch Scholarship Challenge](#)! The 100 worldwide participants will be learning about deep learning practices in an exclusive 12-month course on Udacity. Manasa created a bot-based multiplayer game for her entry. Go Spartans!

## Professor Shoutout

Shoutout to **Professor Ahmed Banafa** for his recent interview by ABC7 KGOTV about Google and Apple's new app tracking COVID-19 positives! This is a very interesting development and the article can be read [here](#). In another interview, Professor Banafa cautions that the behemoth companies should aim for transparency.

# LAST DAY TO EARN GO POINTS IS APRIL 30!

• • • • • • • • • • • • • • •

The GO Program is still running and there are still chances to gain points!

Students must have a minimum of **35 points** to get prizes.

San Jose State University, Tower Hall 207, One Washington Square, San Jose, CA 95192-0002
